Funny and difficult. I'm playing in normal mode and already maps are getting pretty harsh on me. Fortunately respawns are instant, but you don't get checkpoints every corner so yea, feels like 90s.. Great atmosphere, easy to play and perfect graphics. I play for hours because I like the dynamics and game management that amuses me a lot.

But unhappily my competitors come to bankruptcy very fast.

I hope the DLC!. OMG THIS GAME RULES. How this game was presented was simply amazing. It really was made with the upmost care and respect to those with ASD. Of course I had to play it being on the spectrum and I was disappointed. It really could be a good tool to those who might not understand Autism or who wish to understand the disorder better.. In the Luxor games you need to shoot coloured balls into a moving line of balls and match balls of the same colour. So that the line of balls don't reach your base. This just isn't as addicted as similar games like Tetris, Bejeweled, Dr Mario or Puzzle League. If you are a puzzle game addict this and need a different game the Luxor games are good, but if you occasionally play puzzle games like that just play one of the great ones.

If you are a tactical RPG fan then this is a game for you.. Was way to laggy when you start to drive but if they fixed that then they are going to come out with a ripper of a game. Put 20 hours into this game. Really intrigued by it. Learning to move with the mouse driven camera took a while. Once I had a better understanding of what and where things were, I started a new game. However, I have given up though because of inconsistent behaviour / bugs. Last straw was not being able to pick up a lever needed to call train.

I'll wait until there is a later version and try again.
(on windows 10 PC).

Edit. Very impressed the developer reached out to solve the problem (which has fixed its self when I went to play the game at a later date). I'll keep playing and provide feedback on issues.. Oh my god no! Really, go buy anything else! I would really recommend Duck Dynasty more than this pice of crap. Everything from controls to "story" to weaponsimulation is done better by Duke nukem 3d... A challenging, but fun, little game.

11/10 would die again.. Very weird and illogical. "Solutions" made no sense. And not even in a cute, whimsical way. Just lots of nonsense. Story was boring. Unclear what you're supposed to do throughout the whole thing.. Better than Harry Potter!. Very easy game :) ♥♥♥♥♥
