## About This Game

Sokoban Land DX is a 2D top-down puzzle game with colorful graphics and relaxing soundtrack, based on the classic Sokoban style games with some new improvements over the original and a few adventure elements.

You'll need to push boxes to the right places to open the gate and go to the next level. You'll be able to play in single-player mode controlling 1 or 2 characters at same time, or in local co-op mode with a friend changing modes on the fly during levels the way you prefer. Each player can undo their last move, but if you get stuck, you can restart the level whenever you want and there isn't limited movements or timers, so you can do all at your own pace.

The mechanics are very basic. Just simple maths puzzles but they can be very challenging. It's worth the price. The game did quit out once you make a mistake, making it very annoying but that's been changed now.. I bought this as part of the Master Edition, and I really enjoyed this side mission, in fact it is better than most of main missions of the game. It is as short as good as you are in stealth skills, for me it has a satisfactory length. It is worth playing!. DO NOT GET THIS GAME,

Yes it WAS a wonderful game to play single player or coop, but the devs put out all these "updates" to test the game out for magicka 2, rendering this game useless, between crashing and bugs, they essentially f\*\*\*\*\*d this game up, i suspect so they can force you to fork out more cash for magicka 2. Fun and relaxing.. Nice classic game that reminds old Galaxy games. Addictive and one-more-level style. Graphic is simple but it's not so tiring as many other flashing space game that makes eyes sore.. While it had potential, the fact is that this game just isn't very good. Don't bother buying this.. Boring, thats all i can say. This is not only the best Kart Racing sim but for me the most realistic feeling racing sim out there.

Very well done. (you don't feel like you're struggling in a physics lesson on ice like many of the best selling sims where you need to put in too many frustrating hours until they become fun)

This sim is immediately exhilarating and feels real the moment you put your foot down. If you've driven Karts before you get a good sense of feeling the limits and every lap can be rewarding from the moment you play. When you come off the throttle or hard accelerate through corners there is some weighty feel to the Karts and the force feedback has been done well without being overwhelming like others. The karts just feel right (unlike the Karts in Automobilista where I felt like you're on a bed of springs under power and braking and then a Jet Ski on water when lifting off, horrible in comparison)

For me it's worth every penny as I've always missed Karting from my younger days and have never had enough money to start again. The feeling came straight back. I purchased a T150 wheel and Playseat Challenge on a budget and I'm using an old 720P projector so sacrificing graphic quality for the big screen experience, but I wouldn't have been disappointed if I'd paid for more expensive kit. (To hire a 2-stroke Kart you're looking at \u00a3100-200 euros per hour)

Unfortunately there is no AI to race (yet?) there are some online servers where you need to be lucky to find others at the same time. It does have your fastest laps in a Ghost Kart which is an excellent trainer and you will keep improving.

If you're serious about wanting to experience the buzz of 2-stroke Karting (where F1 drivers learnt and still use to train in the winter) then buy this and encourage your friends to get it too.

If you go to the developer's forum you can find organised online race events with people who seem friendly and helpful who are racing for the buzz of Karting not their egos. There are also links to download extra tracks like Kimbolton in the UK where they hold the Super One finals and Formula TKM festival.

Having the three Genk Belgium tracks as standard is a great coup as this has been one of the best Karting facilities in Europe. The small Genk hire Kart circuit encourages so much race craft you'll also see seasoned racers there in real life honing their skills (and probably on this software too).

My only wish is for the developers to add the slower and heavier Sodi Kart 390cc 4-stroke to help train the rest of the family as even the Mini 2-stroke Karts are manic.. Thank you!

Please add more and take my money.. Some interesting stuff going on. It's free, give it a try!

Unplayable due to one jumping bug that wont get fixed since this game is 12 years old. what a shame. The pastel colouration of the levels is relaxing, however, the lack of more pronounced contrast did make seeing some of the bar interconnections difficult without mouseovers.

The music is in sync with the a light puzzle game--albeit a tad repetitive.

Controls are simple and adequate.

50 levels and 50 achievements--a fairly high number of achievements for a short game, but not in keeping with the ZUP/OIK line of puzzler achievement farms. I found this refreshing, though I actually enjoyed the other titles more as I found them easier on my eyes (note the pastel comment above).

This does have some replay value to find, potentially, additional "uncommon solutions" to the puzzles. 2/50 resulted in successes via "uncommon solutions" during my initial playthrough. As a completionist, it would be nice to see some expanded achievements to include intentional "uncommon solutions" for each stage with achievements for discovering said solutions.

Overall, a short but fun title which is worth considering if found on sale or as part of a bundle.

. One of the greatest games of my childhood, it is playful, fun and awesome. YOU control a team of superheroes that use all the superhero cliché and yet it is just joyful ride battling commies, nazies, aliens and all those villainous types with super team, using all their powers and tactics to overcome obstacles.. pls add dlc about the REAL good ENDING PLS I BEGGING YOU I WILL PAY ANYTHING YOU WANT PLS. You can build a city where the lower class doesn't want to enter no matter what and still make 100k per month from low tax rates.

. All so called great games should get inspiration from this title. Such clever and engaging ideas, loved it... One of my favourite childhood games. If you've never played this before, get it right now!. Great classic and enjoyed the hell out of it. use to play this on Xbox back in the day
